Medical

Progress- 2 of 9

An HMO gives you access to certain doctors and hospitals within its network. A network is made up of providers that have agreed to lower their rates for plan members and also meet quality standards. But unlike PPO plans, care under an HMO plan is covered only if you see a provider within that HMO's network. There are few opportunities to see a non-network provider. There are also typically more restrictions for coverage than other plans, such as allowing only a certain number of visits, tests or treatments.

PPO plans provide more flexibility when picking a doctor or hospital. They also feature a network of providers, but there are fewer restrictions on seeing non-network providers. In addition, your PPO insurance will pay if you see a non-network provider, although it may be at a lower rate.

Medical Coordination of Benefits

Progress- 8 of 9

To ensure accurate payment responsibility of your Medical claims processing, your medical plan requires you to fill out a coordination of benefits form.

Answer the question below regarding your current coverage (if any). If you or any of your covered dependents are also covered under any other medical health plan (including Medicare Part A, B or D) on the day your new coverage begins, you must Add this other coverage information for each person covered under this medical plan.

On the day this coverage begins, will you, your spouse, or any enrolled dependents have other health coverage?

Yes No

Please edit the following list to answer if the individual is enrolled in any other coverage.

Name	Relationship	Other Coverage	Carrier	Policy Number
